

Who we are and what we do

Iain Peck BSc MSc, Emma Wilson BSc MSc and Simon Smith MSc are all dedicated forensic fire investigators with a combined experience of over 50 years. Their involvement in a variety of high profile fire cases means that they have a wealth of fire investigation knowledge to draw upon and utilize on your fire case.

Determination of where, when and how a fire started by:

- A detailed methodological approach to fire scene examination
- Risk to life assessments
- Compliance with the CPS Expert Witness Guidelines and the Forensic Regulator's Code of Practice for Fire Investigation
- Laboratory Examination of potential ignition sources including: appliance examinations, smoke detector assessments and flash burning
- Production of peer reviewed reports and statements
